I am so excited to work with 13,000 international graduates who have gone on to work in companies like 3M, PwC, McKinsey, and more. IU’s global network has over 200,000 members, including more than 13,000 international Hoosiers. These connections bring us into the future. We can learn from each other’s experiences and help shape the future careers of others.

These connections drive me to be a global Hoosier for life. I am so excited to work at Kelley and learn more about business and analytics. Since my first time here, I have been so amazed by the amount of opportunities to grow as an entrepreneur and investor. I hope to be able to give back to my community and continue to learn from my amazing opportunities here.

I am so happy to see the international community grow and I cannot wait to continue to be part of this global network. The world is so big and there are so many opportunities to make a difference.
